

## Outside

Please park your cars in front the Lodge and East Wing to allow the owners access their cottage.

Vehicles are parked at the visitors risk.

You may park in front of the gate accessing the East Wing.

If you wish to get to the public footpath which runs along the old railway line, go through the small field in front of the East Wing then to the gate in the middle of the wall at the bottom of the field ( not the gate to the left). Walk across the next field (about 50 metres) and you will find the track. There is no public right of way across the fields and no access to the river at this point.

Please do not climb on or over the dry-stone walls that surround the garden.
